

Yash Ply & Hardware — Client Review Changes

Document for client handoff

Website: Yash Ply & Hardware

Based on: *Website Review & Product Reference* (client brief)

This document confirms that each recommendation in the review has been addressed on the updated website.

1. Overall feedback

Client ask	What we did
Keep clean structure, make site more informative	Expanded product information for all lines; added Laminates and Veneers as full sections
Reduce repetition	Diversified section images, trust-bar copy, and end-of-page CTAs so sections no longer repeat the same message
More product detail / easier to explore	Category pages + detail pages with types, colours, finishes, applications, specs
Section-specific CTAs	CTAs now change by section (see table in §2C)

2. Areas to improve — status

A. Avoid repeating the same images & information

Issue	Change
Same hero / “about” photo reused as kitchen, living, etc.	Image map updated so kitchen, living, hardware, laminates and veneers use different visuals
Same quality / ready-stock / plywood+hardware messaging repeated	Trust bar rewritten; Final CTA band is route-aware (different headline, image and button per section)
Same “Get a Quote” everywhere	Product and category pages now use Enquire Now , Explore... , View... , or Help Me Choose as appropriate

B. Add more product details

For each product / category page we now surface (where relevant):

- Available types / options
- Colours / tones / designs
- Finishes and textures
- Where it can be used (applications)
- Sizes / thicknesses
- Important features and specifications
- Brand references (for surfaces)
- Clear enquire path

Plywood & Hardware — existing catalogues kept and opened via dedicated detail pages.
Laminates & Veneers — new catalogues and pages (see §3–5).

C. Section-specific CTAs

Section	CTA on site
Plywood	Explore Plywood
Hardware	Explore Hardware
Laminates	View Laminates
Veneers	View Veneers
Brands	View Brands
Product detail	Enquire Now
General requirement	Get a Quote
Need help choosing	Help Me Choose

3. Product catalogue research (reference only)

Manufacturer catalogues were used **only as references** to structure Yash Ply content. Final copy is written for Yash Ply & Hardware (not copied from catalogues).

Colour laminates — brands referenced

Brand	How we used it
Merino	Informed types/finishes language (collections such as Limitless, Imagino, Impreza, Awan, Stoven as <i>reference</i>)
Royale Touche	Informed laminate categories, colours, textures and applications framing
Greenlam	Informed collection-style browsing and finish families
CenturyLaminates	Informed LookBook-style colour / texture / pattern presentation

Laminate categories on the website

- 1. Solid Colours
- 2. Woodgrains
- 3. Stone & Marble
- 4. Textured Surfaces
- 5. Decorative & Abstracts
- 6. High Gloss & Matte

Each has: summary, description, colours, finishes, designs, sizes/thicknesses, applications, features, brands, specs, enquire.

4. Veneers

Brand	How we used it
CenturyVeneers	Natural (Natzura Woods–style) and reconstituted (Senzura Styles–style) used as references for types and tones

Veneer categories on the website

1. Natural Veneers
2. Reconstituted Veneers
3. Light & Medium Tones
4. Dark & Exotic Tones

Each has: colours/tones, finishes, designs, applications, features, collections note, specs, enquire.

5. Information taken from catalogues (mapped to site fields)

Laminates

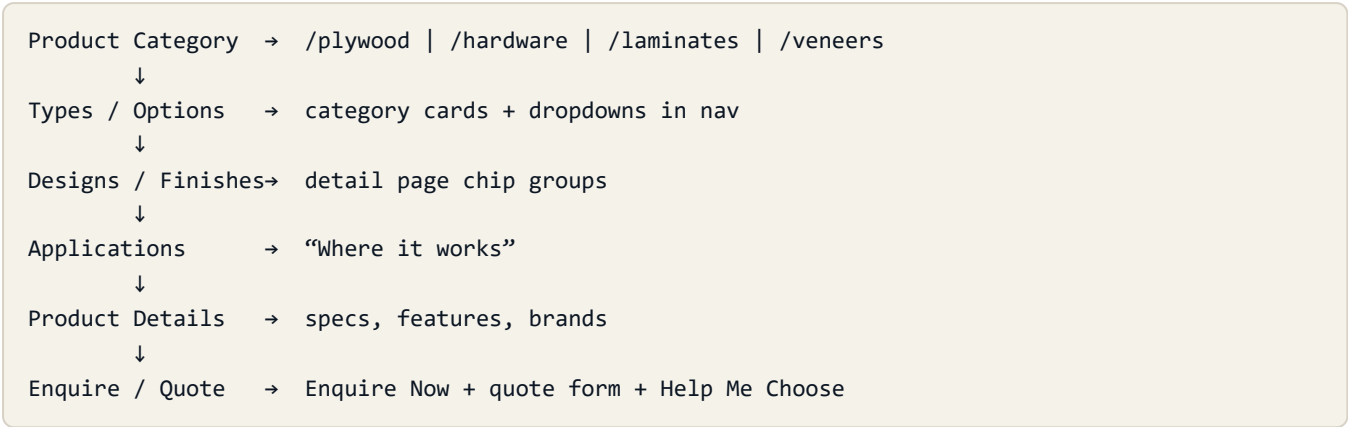

Catalogue field	On site
Colour / shade	Colours / tones chips
Design / pattern	Designs / patterns
Finish / texture	Finishes & textures
Collection / brand	Brands + category copy
Thickness / sheet size	Thicknesses & sizes
Applications	Where it works

Veneers

Catalogue field	On site
Veneer type	Category pages (natural / recon)
Wood / tone	Light–medium / dark–exotic + colour chips
Finish / grain	Finishes & designs
Collection	Collections note
Applications	Where it works

Note: Individual manufacturer product codes are not listed as a static full catalogue (stock rotates). Customers enquire for current shades/codes at the Pune yard.

6. Suggested product page structure — implemented

Example (Laminates): Solid Colours → Woodgrains → Stone & Marble → Textured → Decorative → Gloss/Matte — each with description, visual, and enquire.

7. Next steps from the brief — completed

Next step	Status
Review catalogues from brands listed	Done (used as reference for structure & language)
Shortlist categories relevant to Yash Ply	Done — 6 laminate types, 4 veneer types, plus existing ply/hardware
Collect basic product information	Done — Yash-Ply-written summaries and specs
Make product sections more detailed	Done — list + detail templates
Replace repeated images	Done — per-section visuals / SVG category art for surfaces
Keep CTAs specific	Done — see §2C
Finalise content before design polish	Content updated; ready for client review

8. New / updated URLs (for QA)

URL	Purpose
/products	All four lines with section CTAs
/plywood · /plywood/:slug	Plywood list + detail
/hardware · /hardware/:slug	Hardware list + detail
/laminates · /laminates/:slug	New laminates list + detail
/veneers · /veneers/:slug	New veneers list + detail
/brands	Brands (CTA: View Brands)
/quote	General Get a Quote
/contact	Help Me Choose / visit

Also updated: Home "Our Products" (4 lines), navbar (desktop + mobile), products mega menu, footer, search, Final CTA band.

9. Important note (honoured)

Manufacturer catalogues were used **only as product references**.

All customer-facing text is written for **Yash Ply & Hardware**, describing how the yard helps customers choose materials — not verbatim catalogue marketing.

10. Optional follow-ups (if client wants next)

- Official laminate/veneer product photography (replace SVG category visuals)
- Portrait for Mr. Yash Pancholi
- Specific shade codes / SKUs once a stock shortlist is confirmed
- Printable PDF one-pagers per category

Prepared for client review with the updated website build.
